

Taking out the trash

A big thank you to the the dedicated volunteers, led by Jen and Ran Hansen, who remove trash (below) from the lake every year. An extra effort was made to pull a huge old nasty rug from the lake bottom near the Meadow View Community Beach. The rug was floated to Morgan Park where volunteers pulled it out of the water. It's a reminder for everyone, if you see garbage in the lake, please pick it up from the Lake and dispose of it properly. There was also a great cleanup crew at Anderson Meadow wetland (below).

A hard working team of volunteers spent a day pulling out old rusted metal fence posts and wire fencing in Anderson Meadow and hauled it to the dump. From left, Patty Peter, Tim Cronin, Terry Boxleitner, Mathew Cronin and John Peter.
